Dear Friends of Tower Hill,

This year, the full schedule of Tower Hill’s fall events offer more than just colorful blooms. We are welcoming returning favorites like our sales and offering new and exciting programs. In response to a member survey conducted this summer, we are scheduling a lineup of classes and events that are fun, educational, and a little out of the box. This fall, we will offer not only our beloved annual plant fair and flower shows—featuring cheerful plants, shrubbery, bedding plants, and herbs—but also a whimsical, wondrous garden and, believe it or not, a real-life unicorn! We’re happy to announce our member appreciation events. There will be a member guest day, where each cardholder can bring a friend to enter Tower Hill free of charge, and then Member Appreciation Weekend, where members receive a double discount at our Garden Shop. I can’t wait to see you in our gardens through our garden displays and programs!

Dear Friends of Tower Hill,

This year, the fall garden at Tower Hill will bring more than just fall flowers. We are welcoming you to a world beyond our borders and offering more fascinating programs! In response to a member survey, we created a lineup of classes and events that are fun, educational, and a little out of the box. This fall, we will offer not only our classic fall flower shows – featuring carnivorous plants, dahlias, and holiday flowers – but also an enchanted garden and, believe it or not, robots!
